

Covid -19 Update (24/03/2020)

To all LoneStar Fasteners Europe Customers,

We have been notified of a positive result of a single employee yesterday (23/03/2020), working at our Vulcan Road Plant, as such purely as a precautionary measure the business has decided to close the plant with immediate effect, whilst a deep clean is carried out.

**Subject to any change the plant will re-open as normal on Friday 27<sup>th</sup> March, following the deep clean and quarantine time for goods and materials.**

All orders where possible will be moved to the main works plant of Universal Point or within our group.

**The Universal point plant remains fully operational with staff working from home where possible.**

We are hopeful that this will cause minimal disruption to lead times, and we ask for your patience and understanding during this time.

Many Thanks

Mark Jennings – Sales and Marketing Director.
